

MARVEN JAMES BAGUIO

INFORMATION TECHNOLOGY
STUDENT & DIGITAL ARTIST

I am a fourth-year Information Technology student at PHINMA – Cagayan de Oro College specializing in Digital Arts and 3D Animation. Creative and detail-oriented, I am proficient in Blender, asset texturing, and UI/UX design, with hands-on experience building apps in Flutter and websites with HTML, CSS, and JavaScript. Eager to contribute technical and artistic skills to an innovative digital production team.

TECHNICAL SKILLS

- 3D Modeling & Animation
- Blender 3D
- Visual Asset Design
- UI/UX Design Layouts
- Texturing & Lighting

LANGUAGES & FRAMEWORKS

- Flutter
- HTML
- CSS
- JavaScript

CORE WORK SKILLS

- Time Management
- Collaboration & Teamwork

EDUCATION

Bachelor of Science in Information Technology
PHINMA Cagayan de Oro College | 2023 – Present (Expected Graduation: 2027)

- Major: Digital Arts and 3D Animation

Senior High School Diploma
St. Joseph High School | 2021 – June 2023

- Strand: Information and Communications Technology (ICT)

PROJECTS

3D Building Modeling and Animation
3rd Year Project | Tech: Blender

Designed and rendered high-quality 3D building assets and architectural models. Created fluid animations focusing on realistic lighting, texturing, and rendering.

Mobile Reservation System
2nd Year Project | Tech: Flutter

Developed user interface layouts and interactive elements for a cross-platform mobile application. Collaborated on asset creation and visual design to optimize user experience and the booking workflow.

School Website Portal
2nd Year Group Project | Tech: HTML, CSS, JavaScript

Partnered with a development team to design the layout and visual structure of a school website. Contributed to the front-end design to ensure a clean, engaging, and professional digital presence.

Expense Tracking System
2nd Year Project | Tech: Flutter

Conceptualized the user experience and design flow for a mobile app that tracks and forecasts multi-day expenses. Designed visual elements and data display screens to make complex budgeting information clear and user-friendly.

Bakery Business Website
1st Year Project | Tech: HTML, CSS, JavaScript

Created a responsive web layout for an e-commerce bakery to showcase products and menus. Applied foundational digital design concepts to create custom graphics and basic user interface elements.
